

Eclipse Craft

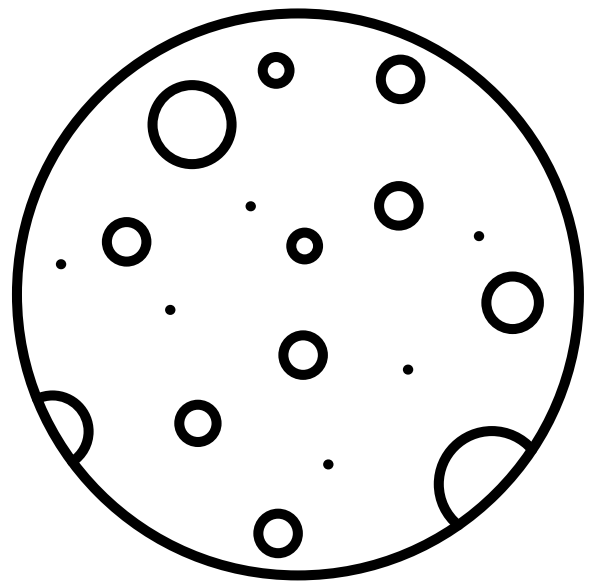

1. Color the sun, moon, and earth.
2. Cut out the sun, moon, and earth.
3. Using the holes in the sun and the moon, attach the moon to the sun using 1 piece of cardstock and 2 fasteners.
4. Using the holes in the sun and the earth, attach the earth to the sun using 1 piece of cardstock and 2 fasteners.
5. Show how a total solar eclipse works by moving the moon in front of the sun. This is what will happen on April 8th!
