This listing represents all the master rolls that the H.C.F.M acquired with the Wurlitzer machinery and tools necessary to produce music rolls. We have the masters to make any of the roll numbers listed here in the various formats shown.

Some of these masters, because of age or extensive use, are no longer usable. This means that it may not be possible to produce every roll number listed. In a case such as this we have two options. We may develop and market a "Theme Roll" such as our *World War II Remembered*. We use only tested and proven masters for these rolls. We can also produce an "X" roll. This is a version of a certain numbered roll which is not identical to the original issue. A ten tune roll might be issued as a nine tune roll with most of the tunes used from the original. An X suffix would be applied to indicate some variation from the original tunes on that roll number. In the future we may be able to copy damaged masters.

It is our intention to produce excellent music rolls of dependable quality with desirable arrangements and tunes.
